

Lyceum students became mine rescuers for a day

Young students of the Kryvyi Rih Lyceum of Security Orientation and National-Patriotic Education of the DonSUVS spent an exciting day in the State Paramilitary Mine Rescue Detachment of the State Emergency Service of Ukraine.

This trip was not just an excursion, but a real immersion in the world of professional rescuers.

Lyceum students not only learned about the everyday work of mine rescuers, but also got a unique opportunity to see everything with their own eyes.

They watched the personnel training, which took place in the training mine and at a height. This allowed them to feel the atmosphere of work, where every movement and every decision can save a life.

Such meetings not only broaden the horizons, but also inspire future defenders.
